Brigham Young University

GPA: 3.57

PROFESSIONAL SUMMARY

Results-driven Senior Product Manager with over 7 years of experience in enterprise platforms, API-driven automation, data analytics, and stakeholder engagement, including 3 years in the airline industry. Expertise in developing scalable platforms that optimize internal workflows, enhance customer relationship management, and drive business efficiency through automation, data intelligence, and AI solutions. Proven success in integrating custom and third-party technologies, collaborating across engineering, data science, and business teams to deliver high-impact enterprise solutions.

WORK EXPERIENCE

Senior Product Manager

Overstock.com/Bed Bath & Beyond — JAN 2023 - CURRENT

- Led the transformation of internal marketing and customer engagement tools into AI-driven automation solutions, improving workflow efficiency and personalization at scale.
- Spearheaded the implementation of Salesforce's Marketing Cloud Personalization across 21 use cases, improving user engagement and reducing churn through data-driven automation.
- Built a unified preference center that empowered users to manage content personalization. The MVP achieved an 80% reduction in unsubscribes, with a 2-year roadmap introduced to expand functionality and user choice.
- Ensured privacy and PII compliance by continually testing deletion APIs to scrub customer data for any PII requested for deletion.
- Managed API integrations with automation tools, enabling seamless data exchange and workflow optimization for internal sales and customer relationship management systems.
- Developed a targeted discount strategy to optimize pricing for different stages of the marketing funnel, improving customer acquisition and retention while reducing discount costs from 10% to a goal of 8% of GMS.

Product Manager

Overstock.com/Bed Bath & Beyond — FEB 2022 - JAN 2023

- Facilitated agile ceremonies such as daily standups, backlog refinement meetings, and retrospectives to enhance team alignment and delivery efficiency.
- Developed and facilitated the BLITZ process, a pre-requirements initiative that unified technical and non-technical stakeholders to define problem statements and translate them into scalable, AI-powered enterprise solutions.
- Defined and executed go-to-market strategies for enterprise tool enhancements, aligning cross-functional teams to drive internal process automation and workflow efficiencies.

Vice President - Product

Real Media SLC — JAN 2021 - FEB 2022

- Managed digital and traditional media buys at local and national levels, collaborating with multiple enterprise and marketing technology providers to create optimized business solutions.
- Built a proprietary analytics tool on top of Google's and internal APIs to measure the effectiveness of traditional media, leading to a 4% increase in digital revenue.

Product Manager/General Manager

Real Media SLC — JUN 2014- JAN 2021

- Utilized Movable Ink to personalize fan engagement emails featuring their favorite players and customized merchandise, resulting in increased fan interactions and improved sales.
- Developed and launched audience engagement tools that improved retention and interaction by providing real-time personalized content.
- Built and refined user journey flows to optimize engagement and drive community growth.

Bilingual Reservations Agent

JetBlue Airways — MAR 2010 - SEP 2012

- Managed and processed cold inbound calls, efficiently creating, modifying, and directing flight reservations to meet customer needs.
- Handled over 200 calls weekly, providing flight booking support and resolving customer inquiries independently.
- Provided customers with accurate information for both domestic and international travel, ensuring a seamless experience.
- Achieved the highest call-to-work time efficiency among peers, showcasing exceptional productivity in handling travel reservations.
